PROFILE

My name is Marcus Mangubat I'm now 3rd year college in City College of Calamba . I'm a hard-working and good in time management . And especially ambitious , eager to keep growing and evolving in my profession . Constantly developing new skills and abilities .

WORK EXPERIENCE

2025
- I built a complete appointment scheduling system for a dental clinic. It lets patients book visits online using a simple, mobile-friendly website. The system uses a database to track doctors, times, and bookings with no errors.

Key Responsibilities:

- Designed and coded an online appointment system using HTML, CSS, PHP, and JavaScript.
- Created a database with MySQL to store doctors, schedules, and patient bookings.
- Made a clean UI with Figma for calendars, forms, and booking pages.
- Built a mobile-friendly website so patients can book from phone.
- Tested the system and fixed bugs to make it fast and error-free.

Achievements:

- Patients could book appointments easily without calling.
- Clinic staff saved time with automatic schedule updates.

Skills Developed:

- Graphic design (Canva, Photoshop)
- Basic web coding (HTML, CSS)
- Working fast and doing many tasks at once
- Teamwork with family and helpers
